No.8744-1/45-Ac, dt 22nd August 1945.

Sir,

Sub: Kollegal Water Supply- Estimate- revision re: Investigation-

Ref. G.O. No. 1974 P.H. dated 11-7-1944.

Kindly refer to this office No. 4506/2-44 WS. (7-II) dated 26-6-1944 giving the cost of Kollegal Water Supply Investigation as Rs.2500/-. During the progress of the investigation, field work in directions not contemplated at the time of framing the estimate had to be covered. 42 borings in all were put down, as against 20 borings originally proposed. The investigation of raw water source, not thought of in the beginning, had to be taken up subsequently. With the result that the investigation work had to cover exploring alternative sources and modes of treatment as the quality of water revealed by borings in the beds of Cauvery and Swarnavathi proved unsuitable for silk-reeling work.

(2) The above-mentioned factors, in addition to increased ~~war and~~ dearness allowance granted to field staff, have increased the cost of the investigation. I enclose a revised estimate for Rs.4050/- as detailed below for your information. I think the estimate may be sanctioned by me and that it does not require specific approval of Government as the investigation has been already authorised in G.O. No. 1974 P.H. dated 11-7-1944. If however you think Government sanction is necessary, it may kindly be obtained.
